

Curriculum vitae

Barry Flanagan

A final year in the TU Dublin Dublin City Campus/I'm a football lover, author and a passionate speaker. I'm also a counsellor. I've found a balance between work and life, now I'm a totally happy person, an inspiring speaker and writer, but it didn't come easily. I've gone through hundreds of failures and complicated situations.

Projects

Year 4	Year 3	Year 2
I'm building a road lane warning system, using concepts of computer vision with modules such as OpenCV library and deep learning a system that uses Machine learning to monitor lane markings and detect when a vehicle is moving out of its lane, a warning system (such as an audio). More	I worked along the team responsible for the SMS and ISO 27001 project at Amazon. This developed and enhanced interpersonal and communication skills, demonstrated project planning and management skills. Technologies & Tools - SharePoint, Microsoft word Excel, PowerPoint.	Given the task to design and develop a dynamic web application including key functionality. Features included shopping cart, user login, admin login and search bar. This project integrated the academic content and practical skills acquired throughout the programme. More
